Block: _____

Relay Race – Fractions and Number Sense

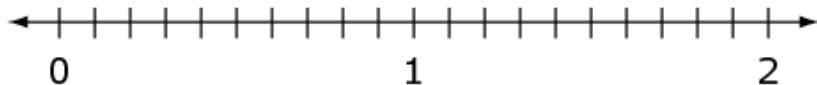

Students are running in a relay race. Each team will run a total of 2 miles.

Each member of a team will run $\frac{1}{5}$ of a mile.

How many students will a team need to complete the race?

You may use the number line to help find your answer.

Relay Race

How many students will a team need to complete the race?

$\frac{2}{5}$ $\frac{5}{2}$ 9 10 20

Explain the process you used to come with your answer.
