

Nicole's
Wedding

Name: _____

Block: _____

Mr. Wong is making Bridesmaids dresses for Nicole's wedding.

Each bridesmaid dress needs one and one fourth yard of white satin fabric, three fourths of a yard a velvet satin fabric and a quarter yard of pink tulle.

Mr. Wong needs to make six bridesmaids dresses.

How much fabric is he going to need?

White satin fabric: _____ yards

Velvet satin fabric: _____ yards

Pink tulle: _____ yards

Show work below:

Mr. Wong has 20 yards of white satin fabric, 10 yards of velvet satin fabric, and three yards of pink tulle.

How many bridesmaids dresses can Mr. Wong make? _____

Which type of fabric does Mr. Wong have most left over after making the dresses and explain how you figured this out.
