## 46 - Scatter Plots and Interpreting Graphs - Big Spender

Tyler earns \$3.00 for every e-book he sells on his website. (E-books are books that are available electronically.) He investigated the relationship between the amount spent on advertising each month and the number of e-books sold. He used this information to determine the lines of best fit shown in this graph.

What is the greatest amount Tyler should spend on advertising each month? Show your work or explain how you found your answer.
