Sixth Grade Mathematics – 2015/2016

Dear Parents,

The goal of the Sixth Grade Mathematics course is to enrich your child's foundation of the sixth grade California Common Core Math Standards. This is the building block to Pre-Algebra and Algebra I as your child continues to move through middle school. It will also be the foundation to the Common Core Standards that were officially tested on last year. Please monitor their efforts and progress through the ATLAS on the Internet. If you have questions or concerns feel free to contact Baird (451-4310) or Email me at brent.wong@fresnounified.org. We look forward to having a great year.....

Curriculum: Go Math Grade 6 and related sources

Quarter 1: (August – September)

Number Systems: Whole Numbers and Decimals, Fractions, and Rational Numbers

Quarter 2: (September – December)

Ratios, Rates, and Expressions: Ratios, Rates, Percents, Units of Measurement, and Expressions

Quarter 3: (January – March)

Equations and Geometry: Equations, Inequalities, Variables, Area, Surface Area, and Volume

Quarter 4: (April – June)

Statistics: Data Displays, Variability, and Data Distributions

Grading Scale: A = 100% - 90%

D = 69% - 60%

B = 89% - 80%

F = 59% and below

C = 79% - 70%

Grading Categories: Total Points

Grades: Please check grades and discuss with your child first. Print a report from ATLAS since grades are updated weekly. What you see on the Internet is a *working grade* and updated daily in most cases. <http://www.fresnounified.org/> in your child's my site.

Homework: Your child should have homework **every night** and it will be assessed in future class blocks. **Late homework will only be given partial credit if turned in within two weeks of due date.**

Planners are used daily to record homework, activities and class work.

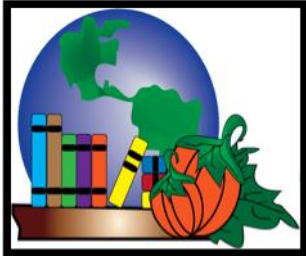

Supplies: Pencils (at least 5)

Ruler

Graph Paper (at least 25 pieces)

Lined Paper (at least 50 pieces)

Sheet protectors (10)
