

Decimals Review

Name: \_\_\_\_\_

1.  $77.2 - 23.678$

2.  $2.072 \div 5.6$

3.  $6.812 \cdot 47.98$

4.  $23.82 + 87.564$

5.  $0.6144 \div 0.016$

6.  $2.4 \cdot 2.723$

Mrs. Diaz went to the store to buy a new coat at Macy's Woman. The cost for the coat was \$124.99 and the sales tax is 8.225%. If Mrs. Diaz gave the cashier a one hundred dollar bill and two twenty dollar bills, how much change should she receive from the cashier? Describe the process you would use to solve this problem.
