# Functions Rules

Functions: For every "x" there can be only one "y".

Vertical Line Test: draw vertical lines on a graph

Each line should only go through the graph at most once

Mapping:

Domain	Range
-3	14
0	11
13	17
20	8

This is a function.

Domain	Range
-18	8
14	9
	1

This is not a function.

Tables:

Domain	Range
-1	2.2
2.9	19
19	19

This is a function.

| Domain	Range
14	11
15	11.5
14	-0.8

This is not a function.

Graphs:
